Our 2 Natural product ranges:

**New generation natural colors. Solvent-free.**

The plant oils and natural resins are dissolved in pure water.

**Classic**

**Traditional, proven natural colors.**

The plant oils and natural resins are dissolved in natural and inert solvents (balsamic turpentine oil, orange peel oil, alcohol, aliph. hydrocarbons).

At Natural, we are convinced that nature contains the best recipes for a beautiful and natural life. Living with nature is a longing that more and more people feel within themselves.

NATURAL Naturfarben

Natural resin extraction in the 1950s

made in Austria.

## Oiling instead of Sealing

Fine wood treated with natural oils and waxes. A pleasure for the senses. The silky matt surface allows the wood to breathe and spread a pleasant fragrance.

With Natural colors you bring the nature into your home.

Living with quality - raw materials from nature.

The cycle, the ever-recurring, the naturally growing is our basic principle. Different compositions of natural raw materials - experience and intensive development.

Sensitive handling of nature with nature and decades of experience are the basic prerequisites.

# H<sub>2</sub> Lasur | Glaze

## Wood Glaze Classic

## PROTECTION AND CARE WITH THE POWER OF NATURE.

Natural glazes are ideal for oiling exterior and interior wood. They penetrate the pores of the wood and fill them with valuable plant oils. This makes the surface hard-wearing and weather-resistant.

- exterior and interior wood
- 22 shades
- very economical
- easy to apply
- repaint without sanding
- No peeling and cracking
- durable and long-lasting

Natural Paints made in Austria. 

# Bees Wax Balm

THE WAXED WOOD CREATES COSY LIVING SPACES FOR YOU AND YOUR FAMILY.

For the finishing and protection of interior surfaces exposed to lower levels of usage, such as ceiling and wall panelling, acousticpanels, doors, shelves and furniture etc. made of wood and cork.

- water-wax-coating
- silky, smooth surface
- extremely economical
- easy to apply
- quick-drying
- insect-friendly

Natural Paints made in Austria. 

  
**NATURAL**  
Naturfarben

# H<sub>2</sub> Furniture Oil

---

## Furniture Oil Classic

FEEL THE SILKY-SOFT WOOD SURFACE.

No layer of varnish disturbs your sense of well-being. Natural Naturfarben offers a sustainable product to preserve the natural appearance and protect the value of solid wood furniture and wooden surfaces indoors: furniture oil. It fills the wood deep into the pores with valuable plant oils and makes it resistant to moisture and dirt.

- pure nature on your furniture
- easy to apply
- highly durable
- easy to clean
- longterm protection

Natural Paints made in Austria. 

  
**NATURAL**  
 Naturfarben

# Parquet Oil Classic

---

PURE NATURE AND HIGHLY DURABLE.

An energy source for your daily energy and cosiness.

A biologically tested, particularly deep-penetrating plant oil treatment that strengthens the base and ensures particularly hard-wearing floor surfaces made of wood, cork, linoleum and stone. Suitable for bathrooms.

- long-term protection
- chair castor tested and suitable
- highly durable
- pure natural feeling on your floor
- no static electricity charge
- highly economical

Natural Paints made in Austria. 

  
**NATURAL**  
 Naturfarben

# H<sub>2</sub> Decking Oil

---

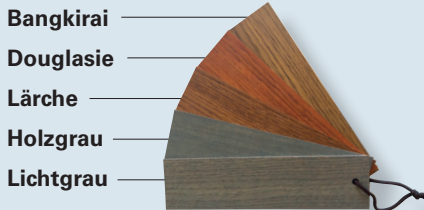

## Decking Oil Classic

PRESERVING BEAUTIFUL WOOD FOR A LONG TIME.

Wooden decking and garden furniture are subject to heavy use. The wooden surface is protected against moisture and dirt. Natural Decking Oil is available in colourless and the colour shades:

- tread-proof surface
- water and dirt repellent
- highly economical
- repainting without sanding
- easy to apply

Natural Paints made in Austria. 

# H<sub>2</sub> UV-Protector

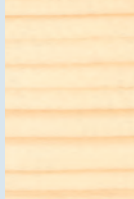

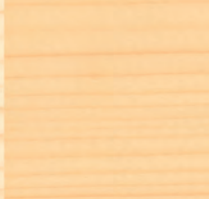

FOR WOODEN CEILING AND WALL PANELLING.

UV light destroys the wood component lignin. The wood yellows and darkens. Natural UV-Protector filters the UV rays that destroy wood. Natural UV-Protector protects light-coloured wood from yellowing and darkening indoors.

You can see the difference after just a short time!

<p>protected with</p>  	<p>without UV-protection <b>oiled colorless</b></p> 	<ul style="list-style-type: none"> <li>■ protects with natural, colourless UV pigments</li> <li>■ quick drying</li> <li>■ wax &amp; water-based</li> <li>■ light-coloured wood for a long time</li> </ul>

Natural Paints made in Austria. 

**H<sub>2</sub>** Teakoil

Teakoil Classic

ENJOY PEACE AND RELAXATION OUTDOORS.

When richly oiled with Natural Teak Oil, the teak furniture can withstand wind and weather and does not hinder the natural silvering process. They preserve their beauty for a long time.

- keeps the precious wood openpored
- highly economical
- easy to apply
- no cracking or peeling

Natural Paints made in Austria. 

# H<sub>2</sub> Weather Protector

---

## Weather Protector Classic

STRONG PROTECTION AGAINST WIND AND WEATHER.

Natural Weather Protection is the natural protective shield for wood that is heavily exposed to sun, wind and weather. Increases UV protection, especially for light colours. It fills the pores of the wood, making the surface even more resistant to weather and UV light. Durable and natural.

As an additional protective coating over the Natural Glaze. Ideal for wood surfaces exposed to heavy weathering.

Natural Paints made in Austria. 

# Wall Paint

natural resin interior dispersion

THE WORLD OF COLOURS, THE WORLD OF EMOTIONS.

Highly breathable wall paint with the purity of plant-based binders. The best raw materials from the natural cycle bring more quality of life into your home.

Walls painted with Natural resin wall paint improve the indoor climate. Any electrostatic charge is avoided. Natural binders, valuable balsamic resins, plant oils and natural wax form a highly breathable paint that hardly impedes the exchange of air between the wall and the room.

- highly breathable
- natural room climate
- pollutant-free living
- antistatic

Natural Paints made in Austria. 

A lightly pigmented reactivator for softwoods - especially for spruce and larch. Final treatment with natural oils recommended. It reacts with the natural wood components and changes the colour of the surface. Solvent-free.

Old wood look at its finest.

---

Particularly suitable for exterior wood (planed/sawn), parquet floors and furniture surfaces. The surface is given the typical aged antique-vintage effect.

# H<sub>2</sub> Wood refresher | de-greyer

For refreshing and de-greying wood. It effectively removes the greying caused by UV light or tannic acid (oak). Healthy wood is not attacked. Final treatment with natural oils. Solvent-free.

multitalented. de-greyes. removes stains.

Weathered, greyed surfaces. For wooden terrace floors, wooden facades, teak, garden furniture, etc. Removes tannic acid stains from parquet and furniture surfaces.

# Rocky Stoneoil

---

PROTECTION AND CARE OF ABSORBENT SURFACES  
SUCH AS NATURAL STONE, EXPOSED CONCRETE AND SCREED.

Rocky Stoneoil protects the stone surface from moisture and soiling. Suitable for all open-pored, absorbent types of stone such as slate, sandstone, Solnhofer, granite, marble, tuff, porphyry etc. as well as concrete, terrazzo and screed in interior and exterior areas. Penetrates deep into the stone, fills the pores and thus prevents the penetration of moisture and dirt. The surface has a rich, silky matt appearance, is water-repellent and highly durable.

- silky matt
- rub resistant
- water-repellent
- colourless
- excellent coverage
- open to diffusion

Natural Paints made in Austria.
